WELCOME TO THE FAMILY

APRIL 2015

Provider Directory

FamilyCare Incorporated

Welcome to FamilyCare!

How to use this directory

This directory lists the providers who regularly take care of FamilyCare members enrolled in the Oregon Health Plan (Medicaid). The directory is organized into sections to help you easily find the health care you need.

The Primary Care Providers section shows physicians, nurses, clinics, and facilities that provide preventive care, health exams and routine services to help you stay healthy and get back to being healthy when you are sick or injured. Very soon after you become a FamilyCare member under the Oregon Health Plan, we assign you to one of our Primary Care providers and send you a letter with the name, address, phone number, and contact information for your Primary Care Provider.

We encourage you to call your Primary Care provider as soon as you can so that you and your provider can get to know each other before you have a problem. Once we have assigned you to a Primary Care Provider, you can be assured you will be able to get an appointment at that clinic or office. When you schedule your first appointment, you start to take control of your own health. Your Primary Care Provider will take care of your regular healthcare needs and most emergencies. Your Primary Care Provider can also help you find a specialist or immediate care when you need it. Please call him or her first.

From time to time, some Primary Care Providers temporarily are unable to accept new patients because all their appointment slots are full. FamilyCare is always available to help you find a healthcare provider to meet your preferences. Please contact us whenever you need help:

Primary Care Provider Directory

Primary Care Providers
Primary care providers (PCPs) include doctors of medicine (MD), doctors of osteopathy OD), family nurse practitioners (FNP), nurse practitioners (NP), physician assistants (PA), and pediatric nurse practitioners (PNP). PCPs are listed alphabetically by state, then county, then city, and then the name of the medical office where they work. Within each medical office, providers are listed alphabetically by their last names.
